## FossilStone - Classico Series

---

Blending the ancient fossil stone textures with modern metal plating technology, the FossilStone Collection is a truly distinctive product in natural stone. Create a stunning wall feature in your home or office, showcasing an eclectic design mix of the archaeological with the modern, industrial with chic, natural stone with metallics, and a dazzling finish with a textured surface.

The FossilStone Collection comes in two variants – the Classico Series and the Jewel Series.

FossilStone - Classico Series: Timeless and elegant, the basic format of the FossilStone Collection is still our most popular.

FossilStone - Classico Series : Copper
